

► Reversible Plate
Compactors + Compass Compaction Meter

Ideally suited for civil engineering, construction and drainage contractors and the hire industry. They offer a high compaction capacity, travel speed and feature a full hydraulic reversing mechanism.

▶ Reversible Plate Compactors

Ideally suited for civil engineering, construction and drainage contractors and the hire industry. They offer a high compaction capacity, travel speed and feature a full hydraulic reversing mechanism.

FEATURES:

Hatz Diesel Engines
(Subaru Petrol on mVH308GEN)

1. Cyclone Air Cleaners
- (Dual on MVH508)
2. Handle anti-vibration
3. Sturdy lifting frame
4. Variable speed controls
5. Enclosed belt guard
6. Fold-up handle
7. Large volume oil tank
8. Removable extension plates

OPTIONAL FEATURE:

COMPACTION METER

The new Mikasa 'Compass' compaction meter is a measuring and display system for continuous compaction control - located in clear view of the operator. Available on 308,408 & 508 Models.

PRODUCT RANGE:

MVH308

MVH408

MVH508

POSITIVE THROTTLE ENGAGEMENT
Exclusively on diesel machines. Guarantees full throttle operation and maximum compaction by eliminating midpoint RPM.

EASY SERVICE
Serviceability with easy access to all maintenance points.

DIGITAL DISPLAY
Hourmeter - allows accurate tracking of hours and maintenance intervals. **Tachometer** - displays engine RPM while in operation
